Team Count:

59

Some of you may have noticed that your final few checkpoints in both races did not register a clock time. This is due to a limitation in the SPORTident timing system we use - your dibber holds 36 checkpoint punches, but only the first 30 include split times. However, all missing time data was recovered from the checkpoint boxes after the event and added to the database to finalise these results. For a corrected PDF copy of your team's individual results sheets, please contact Ian at ratrace@chennell.com with your team number and your return email address. For queries or corrections to race times or penalties, these will require the approval of the Rat Race Event Manager - please contact Andrew on 0409 053 605 or email andrew@ratraceadventure.com. See you all next time!!
